

USKG Departments Act

(USKG act #2)

9/17/2026

This Act creates several functioning departments and agencies of the USKG government. These agencies only possess the powers specifically given to them in this document.

Departments:

1. Enforcement Department. This includes enforcers, military forces, admins, and volunteer militia operating with USKG enforcers. This Agency has the power to enforce laws, fight wars, and assist other agencies/Departments in enforcing and regulating their policies. They can also be used to guard USKG citizens against mobs and raids while they work in caves, mines, dark facilities, or just during the night. The ED is also responsible for the defense of USKG sites and government members from all human attacks. They also have the authority to enforce federal laws upon all of SKG, and local laws upon USKG. They may give and keep Penalty Books for USKG citizens. The Penalty books will be discussed in detail later in this document.
2. Infrastructure and Resources Department. Mostly volunteers and Criminals. This mainly includes the IMR (Infrastructure Management and Repair) Agency and CHNA (Ceteri Hypertransit Network Authority). The IMR is the main part of the IRD. The IMR mainly covers construction of buildings, mining, repairs, renovation, or working with CHN to build roads and transit lanes.

Government branches:

1. Legislative branch. This consists of the Council, and tribe Leaders. The council consists of 11 representatives. Elections happen every month. The Council has the authority to pass laws. The representatives are voted on using approval voting. The highest approved 11 are the council. The most approved from the 11 is the head of the Council. In a tie, voting is done again with only the tying candidates. If there is still a tie, the council may vote (including the candidates). If there is *still a tie*, then the minister may break the vote. ANY USKG Citizen may draft a law and propose it to the Council. If the Council passes it, the Minister or Owner may reject it. If one rejects it, it requires a 65% or more majority from the Council to override. If they disagree, the House of Admins may vote on it. If the bill still ties, it fails to become a law. All approved bills will be refined by the minister, Owner, and House of Admins to be ready for signing.
2. Executive Branch. This consists of the Owner, Minister, and Tribe leaders. It is up to this branch to coordinate enforcement of laws with admins and the ED. Tribe leaders only have executive power over their own citizens and militia And the ED and Executive branch still get to determine how the militia operates in wartime and in matters they deem involve Executive presence.
3. House of Admins. This consists of all admins inside of USKG. Former admins may be elected for a position here. There is no set number of seats. The people say whom they want to be in the House, and all with 50% or more rejection will fail to make the house. Approval voting will be used, rather than first past the post voting. The individual with the highest approval rating will become the head of the house. In case of a tie, voting can be done between just the two candidates by the rest of the house. The minister may break a tie.

-Cetri12, Co-Owner and unofficial owner of SKG.
